Launching 2016 With A Full Calendar *Study Guide*

Welcome everyone to “Launching 2016 With A Full Calendar” webinar. Yes, in 7 short days, you’ll have the ideal events, strategies and campaigns to launch your new year with a BANG! Yes, ring in the new year with loads of confidence, guaranteed income and a plan to give your customers experiences that blow them away!

First Success Principle: Decision and Action creates a compound effect!

When you are hesitant, you become confused and truly indecisive “*Should I?*” how about “*If?*” When you’re confused and indecisive, you waffle—you lack clarity and commitment--and never really create any momentum.

Just decide right now that you’re going for it! When you charge forward with confidence, you make things happen, and when you waffle it’s like starting and stopping a train--it takes too long to rev up and build momentum.
